ABSTRACT
This study aims to analyze literature learning material Class X SMA-MA-SMK in Curriculum Bahasa Indonesia 2016. The method is descriptive by referring to the stylistics study. The problem is how is the linguistic description of literature learning material above?. The findings can be concluded that the poet uses the single and complex sentences. It also uses the rhetorical sentence, parallelism, repetition, metaphor, and climax in poems. The chosen vocabulary by the author is the common vocabulary which they use in our daily life, however it has special meaning when it is arranged in the form of poetry. The imagination in their poems is very strong. It can be seen through visual, auditory, and tactile.

Keywords: stylistics study, linguistics aspect, literature material, curriculum 2016

INTRODUCTION
Stylistics is one study which many teacher and students in Bahasa Indonesia class do not know. It is the relational study between linguistics and literature since it investigates the linguistics aspect in literary works (Nurhayati, 2008: 5). She states that stylistics is the study of the relation between linguistics form and literary function. Stylistic in literature is the study of the writer’s style, for example the use of language in literature to examine the general features of language as a medium of literary expression. It is a branch of general linguistic that the focuses on style, particularly in works of literature (Leech, 1969: 1 cited Abdurrahman, 2016: 220). Stylistics is a branch of applied linguistics, originated as way of applying linguistic models to literary text (Khan, 2015: 10). Widdowson (in Nurhayati, 2008: 6) defines it as the study of literary discourse from a linguistic orientation. Stylistic due to the main influences of linguistics and literary criticism. Critical literally means to be able to argue and judge, (Gin Gin, 2018: 531). Stylistic is needed to understand poetry in terms of language. Poetry is talked about a lot in the language curriculum now.

Curriculum Bahasa Indonesia 2016 covers the new learning material on Indonesian literature. It becomes the cheerful changes to all stakeholders of Indonesian language and literature learning since literature is an appropriate means to distinguish some sentences model through poem, fiction prose, and drama. Through literary works, the teacher can teach the gentleness of a language, the feeling sensitivity, and moral values which can become a good or bad role. Literary works
provide the world of the author’s imagination. Through imagination language, the life becomes more beautiful, the mind becomes richer, and it makes the students happy to study. Idea, sense, and intention can develop. It has the same goal in our national education. National education functions to develop the ability and form the character and civilization dignified nation in order to educate the life of the nation, aims to develop the potential of learners to become human beings who become human beings who believe and piety to God Almighty, noble, healthy, knowledgeable, skilled, creative, independent, and become a democratic and responsible citizen (Building Intelligent and Strong Indonesians) (Puspitawati, 2017: 10).

One component in curriculum content is learning material. Learning material is something contains a message which will be achieved in learning process (Ismawati, Gunawan, Ghofir, 2016: 185). Teacher must choose learning material according to the learning outcome. He/she must make a selection on learning material which appropriate with the Content Competency (KI) and Basic Competency (KD), as stated in Syllabus of Bahasa Indonesia Subject in Senior High School/Vocational High School Class X (Kemendikbud, 2016: 15). There are some adding learning material of literature in Curriculum Bahasa Indonesia 2016, such as five KD about tale, short story, and novel; four KD about biography; and four KD about poetry. From those literature learning materials, poetry is dominant and completely appear in some KD.

Basic Competency 3.16 stated about identify the ambience, theme, and meaning of some poems in Poetry Anthology which is listened or read. The materials are all the types of poems. Basic Competency 3.17 stated about analyze the element of poetry. In Curriculum Bahasa Indonesia 2016 for Senior High School/Vocational High School, those basic competencies can be found in material 3.17 and 4.17. It tells about the element of poetry such as diction, imagination, concrecte word, language style, rhyme, typography, theme/sense, feeling, tone, and intention. It continues to Basic Competency 4.16 which stated about demonstrate (read or musical) one poem from poetry anthology by paying attention to the vocal, expression, and intonation (dynamic and tempo pressure). Basic Competency 4.17 stated about write a poem by paying attention to the construct element. Those construct element of poetry according to Rahmat Djoko Pradopo (Pradopo, 2008: 7) consist of emotion, imagination, thinking, idea, tone, rhythm, five senses impression, word order, imaginary word, density, and muddle feeling. Those elements can be shorten to three elements, such as one, imagination, idea, and thinking; two, the form; and three, impression.

Linguistics study on literature text learning material is very interesting, however teacher and language students are not interest enough. Literature is suitable to teach to the students since literary works can be used to develop the insight of nation thinking (Wardiman, 1998: 3). Besides that, literature language is special, unique, licentiate poetical, ungrammatical, and fully deviation. The deviation is displacing of meaning, distorting of meaning, creating of meaning (Riffaterre, 1978: 2 cited Supriyanto, 2014: 114). Djojosuroto (cited Puspitawati, 2017: 13) suggests that literary charm in modern society as follows, a) literature can refine the soul; b) literature can motivate people to think and do for the sake of development of themselves and society; c) literature encourages the emergences of awareness, openness, and community participation in development; d)
literature encourages people to apply good and noble morals in life; e) literature awakens man to his duties and obligations as God’s creatures, social beings, and personal; f) literature stimulates scientists to engineer, invent and discover new science; g) literature serves as a vehicle for disseminating advances in technology and informatics; h) literature raises a broad insight for its readers so as to be able to act and behave as a qualified modern human being; i) literature in addition to preserving the value of civilization of the nation, also encourage the creation of a civilized modern society / civil society; j) literature can motivate the growth of global changes; k) literature can humanize human beings; l) literature can introduce universal human values; m) exercise emotional intelligence, and n) sharpen reason.

The concept of complexity in stylistic shows itself in various shapes almost are in hierarchical relationship complexity of sentence (sentence structure, sentence length) (Abdurrahman, 2016: 221 ). While Widdowson is of the view that stylistic is a link between the disciplines; literary criticism and linguistics, (David Crystal, 1980 cited Khan, 2015: 10 ) sees stylistics as a part of linguistics which “studies certain aspects of language variation”. In this sense stylistic analysis tends to explore and explain the particular choices made by the writer/author in the selection of words and sentence structure. In other words the style employed by the author serves to present a particular emotion and meaning (Khan, 2015: 10). There are quite a lot definitions of language style in modern linguistics, and they depend on how widely the object of stylistic is presented (Krivchikova, Inna, Natalia, 2015: 188).

Poetry is the oldest literary form. It emerges with the presence of man (Muntazir, 2017: 208). Poetry have a lot of learning material in Curriculum Bahasa Indonesia Class X. The examine aspects in poetry based on Curriculum 2016 are diction, imagination, concreate word, language style, rhyme, typography, theme/sense, feeling, tone, and intention. From those elements, imagination is the important point. Imagination in a poetry consists of word or word order which can reveal the sensory experience such as visual, auditory, and tactile. There is a tight relationship between diction, imagination, and concreate word. Diction which is chosen must make an imagination which becomes a concrete word (Kemendikbud, 2016: 17).

Below are the examples of visual, auditory, and tactile imagination.

**GADIS PEMINTA-MINTA**
*(Toto Sudarto Bahtiar)*

Setiap kita bertemu, gadis kecil berkaleng kecil
Senyummu terlalu kekal untuk kenal duka
Tengadah padaku, pada bulan merah jambu
Tapi kotaku jadi hilang, tanpa jiwa

Visual imagination is describing an image object which can be seen by using words. From this poem above, we can see that a girl, who becomes a beggar, brings a small can as a sign of a city.

**ASMARADANA** *(Gunawan Mohamad)*

Ia dengar kepak sayap kelelawar dan guyur hujan dari daun // karena angin pada kemuning. // Ia dengar resah kuda serta langkah pedati // Ketika langit bersih menampakkan bima sakti

From the poem above, the reader can hear the wing of bat, the splash of rain, the horse restless, and the step of horse cart. Auditory imagination is describing an image which can influence the reader’s feeling by using words.
From the poem above, the reader can feel how Chairil Anwar’s feeling before his death. He is ready to die. It reveals in the sentence ‘Aku berbenah dalam kamar, dalam diriku jika kau datang’.

**METHOD**

This study is descriptive qualitative. The data are in the form of poetry learning material in Curriculum Bahasa Indonesia for Senior High School/Vocational High School 2016 and students’ text book which is published on Kemendikbud, 2017. The data collection technique in this study is by taking poems (since there are a lot of learning material in the form of poetry) in students’ book then analyze the linguistics aspect and the language style with stylistics theory. The analyze elements are physical structure from linguistics aspect and internal structure of a poem from appreciation aspect (Nurhayati, 2008: 7). Linguistics aspect in a sentence can be seen through grammatical cohesion such as reference, substitution, ellipsis, and conjunction. While, lexical cohesion are repetition, synonym, collocation, hyponym, antonym, and equivalent (Herianah, 2014: 32). The focus problem on stylists is the language use in literature by the author (Supriyanto, 2014). Poetry is also discussed in this paper, according to Suminto A. Sayuti (2008: 3) cited Andyan (2017: 40), states that poetry is a form of language expression that takes into account the aspect of the sound in it, which expresses the imaginative, emotional, and intellectual experience of the poet drawn from the individual and social life, expressed by a certain choice of technique, so it can evoke certain experiences in the reader or audience. The language in poetry is a language that is developed and has many possible meanings (Anindita, 2017: 40).

**RESULTS AND DISCUSSIONS**

From the data above, it can be seen that literature learning materials in Class X
Senior High School/Vocational High School are tale, short story, biography, and poetry. The most occurrence material is basic competency on poetry. Thus, the discussion will be focused on stylistic study of poetry. In *Bahasa Indonesia Kemendibud RI* book Class X for Senior High School which is published in 2017, there are some poetry written by W.S. Rendra, Sapardi Djoko Damono, Chairil Anwar, Aming Aminoedin, D Zamawi Imron, Taufiq Ismail, Toto S Bachtiar, Goenawan Mohamad, Ali Hasymi, and Abdul Hadi W. M (Suherli, 2017: 1). From those books, there do not introduce yet about the stylistic analysis to students and teacher.

Grammatical and Lexical in ‘Sajak Anak Muda’ by Rendra

When we are seen from Indonesian sentence structure, line (1) and (2) are one sentence, ‘Kita adalah angkatan gagap yang diperanakkan oleh angkatan takabur’. This sentence is compound sentence which has clauses. The independent clause (main clause) is ‘Kita adalah angkatan gagap’, while the dependent clause is ‘yang diperanakkan oleh angkatan takabur’. The opening sentence in this poem contains regret which states that we are stutter era. This regret continues to the next sentence, which states that we were born by the arrogant era. This regret intonation can be accepted since in the reality of the nation life there are not beautiful thing as we expected regarded to injustice. The stutter and arrogant generation is not hoped by our founding father since they have fight with blood and tears, and the next generation must fulfill this life with safety, secure, and peace.

Rendra’s expression in the beginning of this poem continues to the next line, such as line (3), (4), (5), (6); ‘Kita kurang pendidikan resmi di dalam hal keadilan,
karena tidak diajarkan berpolitik, dan tidak diajar dasar ilmu hukum’. This sentence is the confirmation from the previous sentence. It states that we, Indonesian, are not done the justice yet. The next line (7), (8), (9), and (10) is the result from the previous sentence, ‘Kita melihat kabur pribadi orang, karena tidak diajarkan kebatinan atau ilmu jiwa’. Here, the poet is really disappointed with the potential of young people. The effect of this statement is the poet becomes angry, and says that ‘Kita tidak mengerti uraian pikiran lurus, karena tidak diajar filsafat atau logika’. This reality is not fully the mistake of young people.

It can be seen in sentence (11), (12), (13), and (14) as follow. ‘Apakah kita tidak dimaksud untuk mengerti itu semua?’ ‘Apakah kita hanya dipersiapkan untuk menjadi alat saja?’ Those are rhetorical sentences. It does not need an answer since the answer is stated in the previous sentence. The next sentences is the acceptance sentence toward the reality, as stated in sentence (15), (16), and (17) as follow. ‘Inilah gambaran rata-rata pemuda tamatan SLA, pemuda menjelang dewasa’. This poem is written in “orde Baru era”, it becomes the picture of the young people which describe by the poet.

In the next line, the poet states another topic, the awareness on reality which we (Indonesia) already have, as seen in sentence (18) and (19). Here, the poet uses the simple sentence (Subject plus Predicate). ‘Dasar pendidikan kita adalah kepatuhan’, the subject is noun and the predicate is also noun. The next sentence is also simple sentence which contains rhetoric sentence, ‘Bukan pertukaran pikiran’. Sentence (20) and (21) are the compound sentences by using conjunction ‘and’, ‘Ilmu sekolah adalah ilmu hafalan, dan bukan ilmu latihan menguraikan’.

In the sentence (22), (23), (24), and (25), the poet states the belief that what we are afraid of is really happened as seen in the following sentence ‘Dasar keadilan di dalam pergaulan, serta pengetahuan akan kelakuan manusia, sebagai kelompok atau sebagai pribadi, tidak dianggap sebagai ilmu yang perlu dikaji dan diuji’. This sentence is complex compound sentence in the poem entitled ‘Sajak Anak Muda’ by Rendra. In this sentence, it consists of parallelism, repetition, and climax, as follow.

Parallelism can be seen in the two following sentences. ‘Dasar pendidikan kita adalah kepatuhan. Bukan pertukaran pikiran. Ilmu sekolah adalah ilmu hafalan, dan bukan ilmu latihan menguraikan’. ‘Dasar keadilan di dalam pergaulan, serta pengetahuan akan kelakuan manusia, sebagai kelompok atau sebagai pribadi, tidak dianggap sebagai ilmu yang perlu dikaji dan diuji’.

Repetition can be seen (1) in the sentence which begins with the word ‘Kita’, ‘Kita adalah angkatan gagap. // Kita kurang pendidikan resmi. // Kita melihat kabur pribadi orang. // Kita melihat kabur pribadi orang. // Kita tidak mengerti uraian pikiran lurus’; (2) in the sentence which begins with the word ‘Dasar’, ‘Dasar keadilan di dalam pergaulan, serta pengetahuan akan kelakuan manusia, sebagai kelompok atau sebagai pribadi, tidak dianggap sebagai ilmu yang perlu dikaji dan diuji’.

Climax can be seen in the two following sentences. It is started from the first sentence then continued to the second one. There is the increase intensity to the climax. We can see the following sentences, ‘Kita adalah angkatan gagap. // Kita kurang pendidikan resmi. // Kita melihat kabur pribadi orang. // Kita melihat kabur pribadi orang. // Kita tidak mengerti uraian pikiran lurus. // Kita marah pada diri sendiri. // Kita sebal terhadap masa depan. // Kita hanya bisa membeli dan memakai. // Kita tidak bisa memimpin. Di sini juga terdapat pengacuan persona.’
Kita tidak mengerti uraian pikiran lurus’, 
then continue the second sentence, 
‘Pendidikan tidak memberi pencerahan. // Latihan-latihan tidak memberi pekerjaan’

Next, we can discuss the sentences number 26 until 50 in Rendra’s poem. Line (26) ‘Kenyataan di dunia menjadi remang-remang’ continues from the previous line that is the reality about our life in nation thing which is shadowy. This reality continues in line (27) ‘Gejala-gejala yang muncul lalu luang’ and line (28) which we cannot connect it. Those sentences becomes compound sentence. In this part, there is a repetition form, such as (29) ‘Kita marah pada diri sendiri.’ (34) ‘Kita hanya bisa membeli dan memakai’, and (36) ‘Kita tidak bisa memimpin.’

There is also found the use of conjunction. In line (31) ‘Lalu akhirnya’, and (32) ‘menikmati masa bodoh dan santai’ there are the use of conjunction ‘lalu’ and ‘dan’. It also occurs in line (35) ‘tanpa bisa mencipta’, line (37) ‘tetapi hanya bisa berkuasa’, line (41) ‘untuk menjadi alat dari industri’, line (42) ‘dan industri mereka berjalan tanpa henti’, line (43) ‘tetapi kita dipersiapkan menjadi apa?’, and line (45) ‘dan birokrasi menjadi berlebihan.’ In line (44) ‘Kita hanya menjadi alat birokrasi!’ there is a climax of the problem which becomes the topic of the poem. The sentence with exclamation means that the poet is angry. He chooses the softest sentence but the angry intonation represents by the exclamation (!). Then, the poet uses metaphor to state the critics, such as in line (45) ‘Dan birokrasi menjadi berlebihan’, (46) ‘tanpa kegunaan –’, and (47) ‘menjadi benalu di dahan’. The birocracy is as same as the parasite which sucks the food on the plants.

The parallelism reappears in the sentence (48) ‘Gelap. Pandanganku gelap,’ and sentence (51) ‘Gelap. Keluh kesahku gelap.’ It is agreed with the research from Mukti Widayati (2014) which states that the stylistic frequently occurring in the poetries of W.S. Rendra are repetition, climax, and anticlimax as well in addition to a small portion of other stylistic. The dominant stylistic is repetition, and this makes the poetries look rhythmic.

The poet starts the reflection in the sentence (51) ‘Gelap. Keluh kesahku gelap.’ It is the parallelism form toward the sentence (48) above. The next line is the declaration sentence, such as in line (52) ‘Orang yang hidup di dalam pengangguran.’ This follows by three rhetoric sentences as follow.

(53) ‘Apakah yang terjadi di sekitarku ini?’
(56) ‘Apakah artinya tanda-tanda yang rumit ini?’
(57) ‘Apakah ini? Apakah ini?’

The answer of this rhetoric sentence is on the sentence (54) ‘karena tidak bisa kita tafsirkan’ and (55) ‘lebih enak kita lari ke puisi ganja’. The word ‘puisi ganja’ is the new form by Rendra which means the intoxicate poem or just contains a moment happiness.

The metaphor can be seen in the following line.

(58) ‘Ah, di dalam kemabukan,’
(59) ‘wajah berdarah’
(60) ‘akan terlihat sebagai bulan.’

Those line can be made become one sentence as follow ‘Ah, di dalam kemabukan, wajah berdarah akan terlihat sebagai bulan.’ It means that in the unconsciousness, we cannot see honestly.

The other rhetoric sentences are as follow.

(61) ‘Mengapa harus kita terima hidup begini?’
(68) ‘Bagaimana? Apakah kita akan terus diam saja.’
Another parallelism can be seen below.
(62) ‘Seseorang berhak diberi ijazah dokter,’
(63) ‘dianggap sebagai orang terpelajar,’
(64) ‘tanpa diuji pengetahuannya akan keadilan.’
(65) ‘Dan bila ada tirani merajalela,’
(66) ‘ia diam tidak bicara,’
(67) ‘kerjanya Cuma menyuntik saja.’

The sentences (62), (63), (64) are parallel to the sentences (65), (66), (67). The next line is also another example of parallelism.
(69) ‘Mahasiswa-mahasiswa ilmu hukum’
(70) ‘dianggap sebagai bendera-bendera upacara,’
(71) ‘sementara hukum dikhianati berulang kali.’
(72) ‘Mahasiswa-mahasiswa ilmu ekonomi’
(73) ‘dianggap bunga plastik,’
(74) ‘sementara ada kebangkrutan dan banyak korupsi.’

The sentences (69), (70), (71) are parallel to the sentences (72), (73), (74). The next line consists of the declaration sentence which becomes one compound sentence in two line below.
(75) ‘Kita berada di dalam pusaran tatawarna’
(76) ‘yang ajaib dan tidak terbaca.’

The line (75) and (76) are one declaration sentence which divides into two line to enjambment purpose. ‘Kita berada di dalam pusaran tatawarna yang ajaib dan tidak terbaca.’ This sentence is compound sentence with the dependent clause as adverb.
(77) ‘Kita berada di dalam penjara kabut yang memabukkan.’
(78) ‘Tangan kita menggapai untuk mencari pegangan.’

The sentence (77) and (78) is also uncomplete declaration sentence. The final sentence is on the line (79), (80), and (81) below.
(79) ‘Dan bila luput,’
(80) ‘kita memukul dan mencakar’
(81) ‘ke arah udara’
‘Dan bila luput, kita memukul dan mencakar ke arah udara’ means that a wasted work. It suits to the sentence (77) ‘Kita berada di dalam penjara kabut yang memabukkan’ and sentence (78) ‘Tangan kita menggapai untuk mencari pegangan’, if the hand-grip is missed, it will be wasted. The next sentences (82) and (83) are the parallelism from line (1) and (2) which is the beginning of the poem. So, if we precise accurately, line (1) and line (82) (83) are the whole unity. ‘Kita adalah angkatan gagap yang diperanakkan oleh angkatan kurang ajar.’
(82) ‘Kita adalah angkatan gagap,’
(83) ‘Yang diperanakkan oleh angkatan kurang ajar.’

Then, this study comes to the end of the poet’s statement in the poem entitled ‘Sajak Anak Muda’ by W.S. Rendra, as follow.
(84) ‘Daya hidup telah diganti oleh nafsu.’
(85) ‘Pencerahan telah diganti oleh pembatasan.’

The poet feels that our life in the world is out of truth track, (84) ‘Daya hidup telah diganti oleh nafsu.’ and (85) ‘Pencerahan telah diganti oleh pembatasan.’ The poet closes his poem by the tragic statement, (86) ‘Kita adalah angkatan yang berbahaya.’

Grammatical and Lexical in ‘Aku Ingin’ by Sapardi Djoko Damono
Below is the poem entitled ‘Aku Ingin’ by Sapardi Djoko Damono.

AKU INGIN (Sapardi Djoko Damono)
1. Aku ingin mencintaimu dengan sederhana
2. dengan kata yang tak sempat diucapkan
3. kayu kepada api yang menjadikannya abu.
1. Aku ingin mencintaimu dengan sederhana
2. dengan isyarat yang tak sempat disampaikan
3. awan kepada hujan yang menjadikannya tiada.

The poet pours his imagination in the short sentences to gain the poetic effect. It is also gained enjambment by cutting the unfinished word in those sentences, such as ‘diucapkan kayu’ and ‘diucapkan kayu’. In the poem above, linguistically, there are two long sentences (complex sentences), that are (1) ‘Aku ingin mencintaimu dengan sederhana dengan kata yang tak sempat diucapkan kayu kepada api yang menjadikannya abu.’ and (2) ‘Aku ingin mencintaimu dengan sederhana dengan isyarat yang tak sempat disampaikan awan kepada hujan yang menjadikannya tiada.’ Those consists of parallelism form. The sentence structure in this poem (1) and (2) as follow. The subject is ‘Aku’. The predicate is ‘ingin’. The object is ‘mencintaimu’. The adverbs are (1) ‘dengan sederhana dengan kata yang tak sempat diucapkan kayu kepada api yang menjadikannya abu’ and (2) ‘dengan sederhana dengan isyarat yang tak sempat disampaikan awan kepada hujan yang menjadikannya tiada’.

The adverb of sentence (1) and (2) are very long since it has dependent clause, such as (1) ‘kata yang tak sempat diucapkan api yang menjadikannya abu’ and (2) ‘isyarat yang tak sempat disampaikan awan kepada hujan yang menjadikannya tiada’. In the sentence (1), ‘Kata’ is subject, ‘yang tak sempat’ is adverb of subject, ‘diucapkan’ is predicate, ‘api’ is adverb of predicate, and ‘yang menjadikannya abu’ is adverb of the sentence. The sentence (2) has the same pattern, ‘Aku ingin mencintaimu dengan sederhana dengan isyarat yang tak sempat disampaikan awan kepada hujan yang menjadikannya tiada.’

Although it is long sentence, if we see from the use of vocabulary, most of Sapardi Djoko Damono’s poem is used the daily vocabulary, but it has the magical meaning which can sweep away the reader’s feeling. This is the uniqueness of a poet named Sapardi Djoko Damono who has been recognize internationally.

This poem contains a message to the reader that there will be one day that we cannot do nothing unless silent. Thus, when we still alive in this world, we must keep our good manner. There will be a time that our mouth is locked, then our foot and hand will talk.
CONCLUSION

The poet written by six authors above uses the single and complex sentence which the presentation changes into two or three lines to gain enjambment effect in his poetry. They also use the rhetorical sentence, parallelism, repetition, metaphor, and climax in his poem. The chosen vocabulary by the poet is the common vocabulary which we use in our daily life, however it has special meaning when it is arranged in the form of poetry, such as some poems written by W.S. Rendra, Sapardi Djoko Damono, Gunawan Mohamad, Toto Sudarto Bahtiar, D. Zamawi Imron, and Abdul Hadi W.M. The imagination in their poems is very strong. It can be seen through visual, auditory, and tactile. Analyzing the poetry which goes under the linguistic aspects as previously done in stylistics study is very interesting. The teacher can start to define the stylistic study on short poetry to the students which can touch their heart. To the Senoir High School students, all topics in daily life can be presented, such as love in nationalism aspect, bad luck, happiness, devoting to parent. Thus, literature is very important to form the students’ character to have good manners and kind hearted.
